

All about Albert Einstein

By Davis

Do you know about
Albert Einstein? No, this
book will tell you all about
him!

Ch.1 Theories

Albert Einstein made lots of theories. About time, electronics and space. like, (it's not that I'm smart it's that I stay with problems longer) theories was a big part of him being famous.

Ch.2 Famous

Albert Einstein is famous in many ways. Like helping scientists answer their questions, and he was super good at physics.

Some of his things still help scientist right now. He made a disco ball to look at minds! He figured out that some planets rings are made out of rocks.

Ch.3, Childhood

Albert Einstein was an exiting kid.one time Alberts dad brought him a compass ,Albert loved it they called it a puzzle. Albert loved to ask questions, he asked questions about half the things he saw. Albert loved story's.

Ch.4 Later life

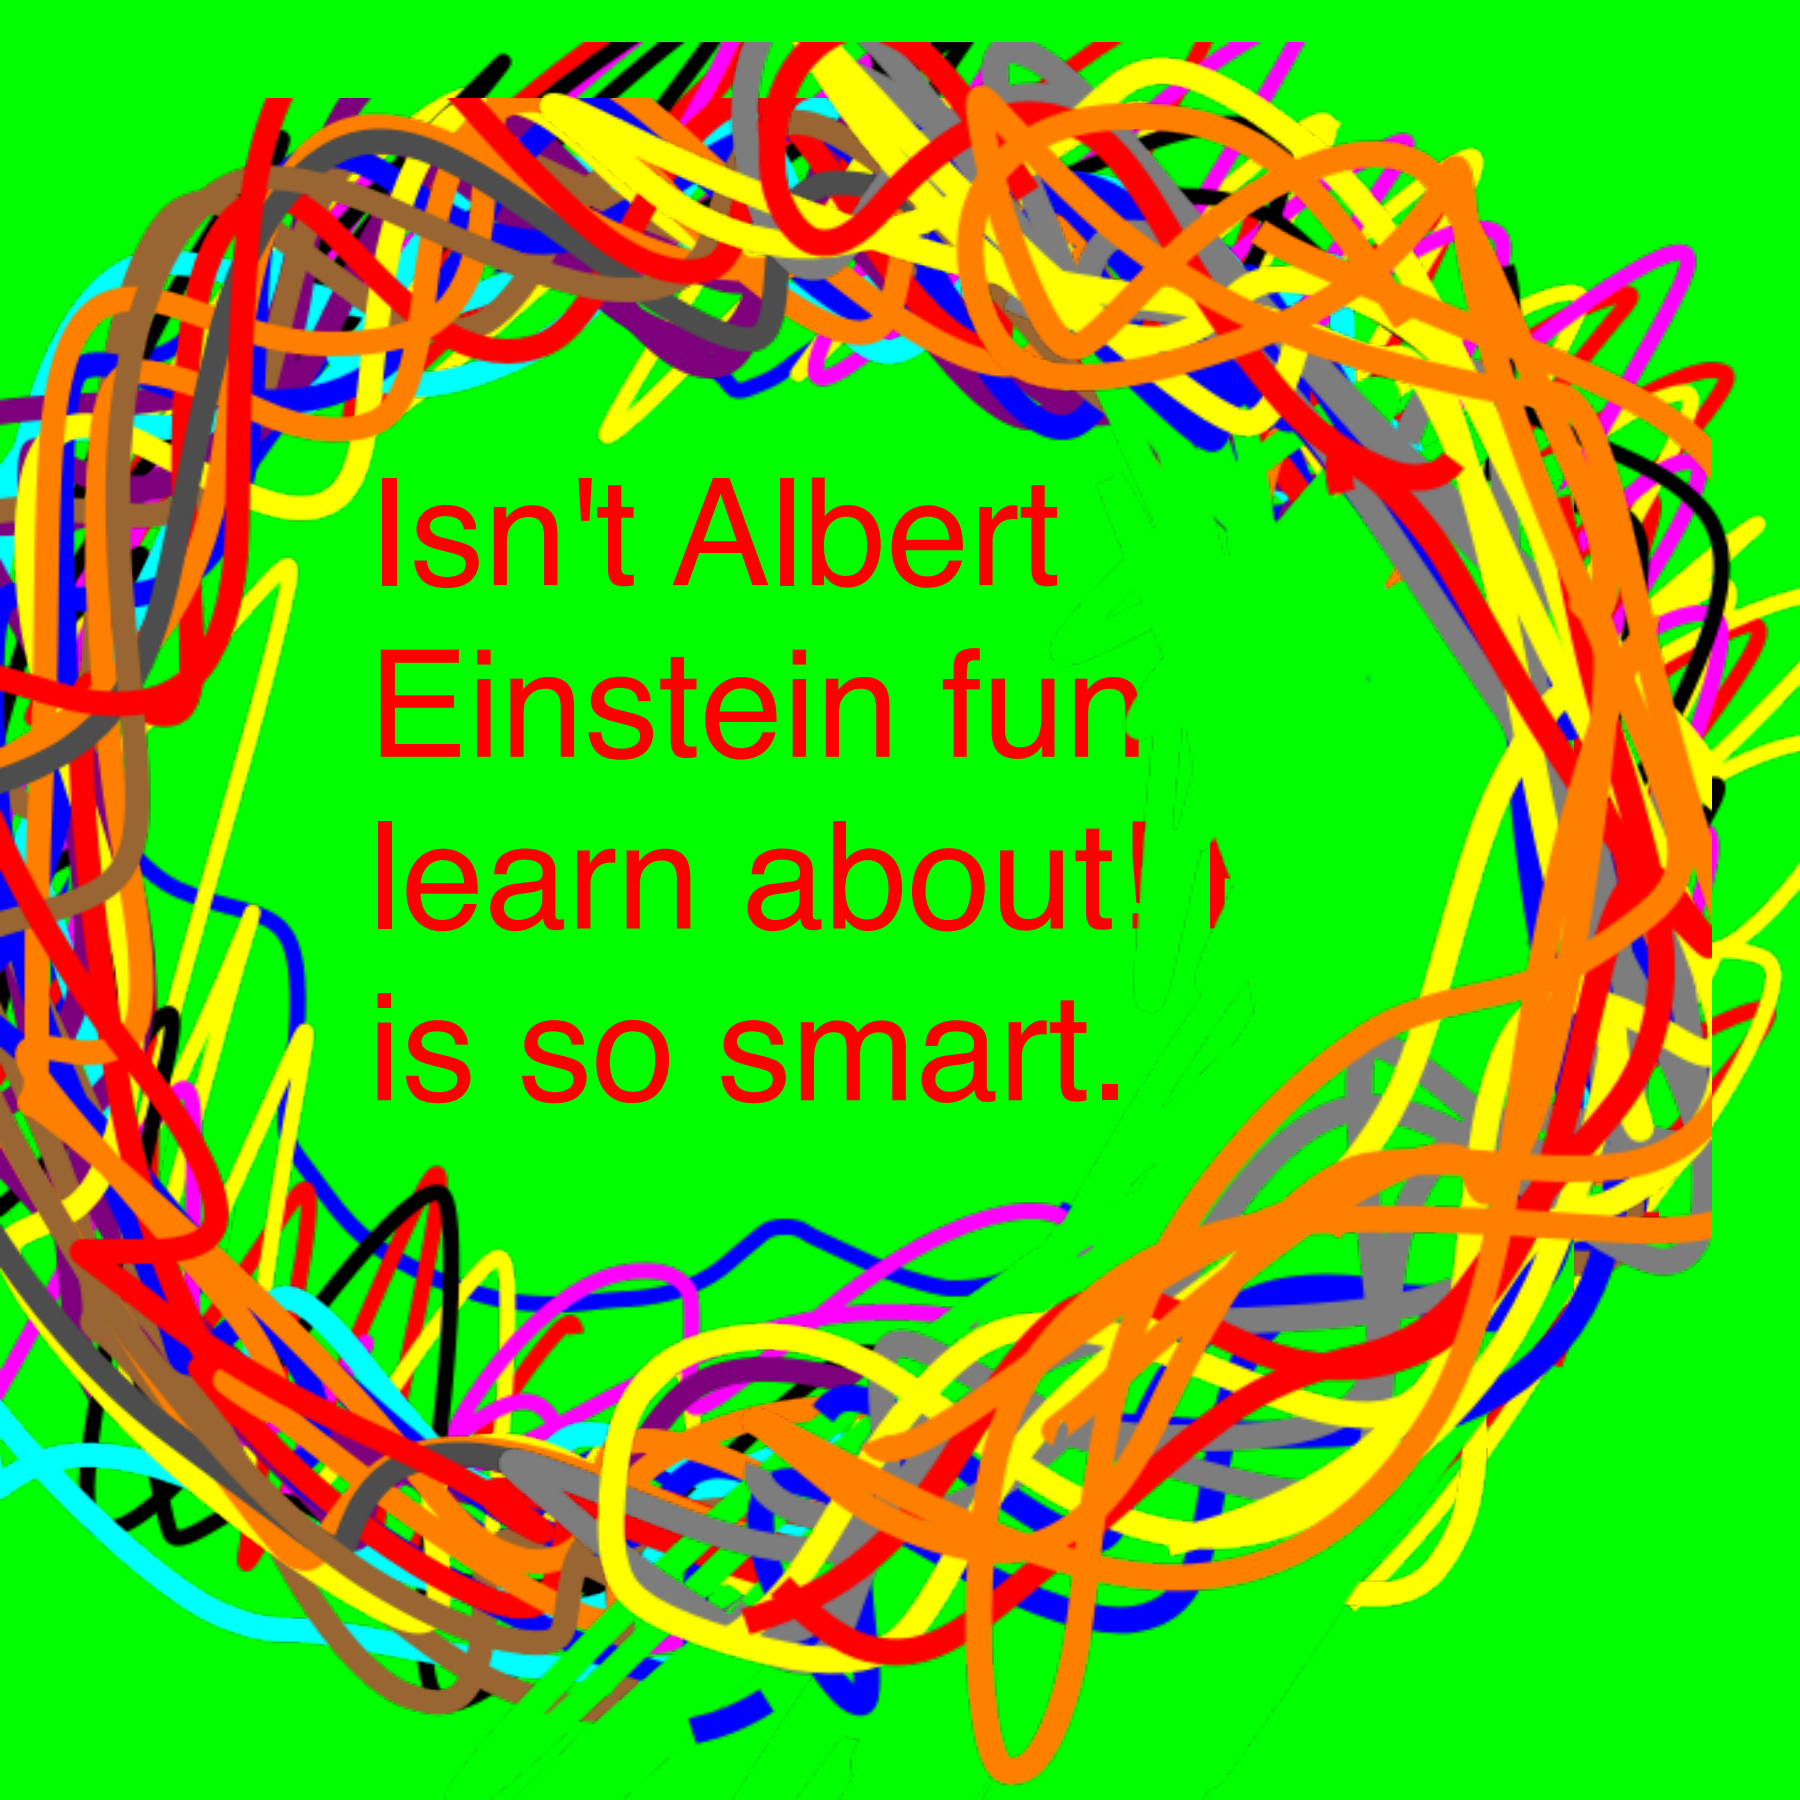

Albert Einstein was Jewish. He was one of the first people to make an atomic bomb. The atomic bomb was for World War 2. The person that started the war was named Hitler. Luckily Albert avoided the war and came to the United States. He came somewhere near New York. Then he got married to a girl named Mileva Marić.

Ch.5 Marriage

When Albert got away from war he found love. The girls name was mileva marić. After they married mileva had a baby.

Isn't Albert
Einstein fun
learn about!
is so smart.
